

JM 6101

JENKINS MARINE

Specialised Workboats & Barges

JM 6101 is a swim-ended, rectangular, deck cargo barge. It has two spud legs for precise position holding, a shallow draft, suitable for working in close to shore and a large deck load capacity, for bulk cargoes such as rock or heavy plant. Lashing rails and a wave screen are also fitted for the security of cargos at sea.

Length	36.58 m	Deadweight	607 tonnes
Beam (Hull)	10.06 m	Spud Legs	2 x 16.5m
Depth	3.20 m	Auxiliaries	Manual anchor winch
Draft (Light)	0.71 m		
Draft (Loaded)	2.40 m
