Doreen Dorward

JENKINS MARINE

Commercial Work Boats & Barges

Doreen Dorward is the perfect partner for most near shore marine civil engineering applications. Essentially, a self-propelled spud leg pontoon with comfortable mess and office facilities, it's versatility is due to a large clear deck incorporating a well & moon pool. Combined with excellent manoeuvrability, shallow draft and low fwd. freeboard, this vessel is ideal for dredging, piling/lifting, site investigation, bulk deck cargos or loading/unloading equipment from beaches.
