JENKINS MARINE

Specialised Workboats & Barges

Aluminium Dorys - 5.5m

Jenkins Marine operate a fleet of robust aluminium dorys, which provide an economical solution to waterborne access. These vessels are ideal for use as safety boats on marine construction sites. Their size allows them to operate in the most restricted areas, where shallow water or low air draft would normally prohibit most vessels. For shallow water site investigation work, such as manual CPTs we offer this 5.5m dory fitted with a moon pool.

Length	5.5 m	Propulsion	Outboard motor
Beam (Assembled)	2.1 m	Speed	20 knots
Draft (Light)	0.4 m	Capacity	500 kgs
Weight (Approx.)	800kgs
