

JML RIB

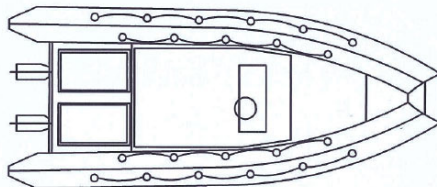

JENKINS MARINE

Specialised Workboats & Barges

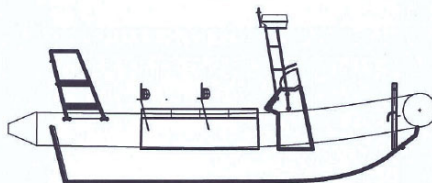

JMLRIB is a highly manoeuvrable, twin inboard diesel engine rigid inflatable, ideal for crew/support duties, safety/survey work, dive support, or simply as a working platform. This vessel is provided with MCA Cat. 3 Workboat Code of Practice certification, and has all the required safety equipment. It has a capacity of up to 6 persons including crew. The vessel has its own road towable trailer for delivery, and comes with a customised set of certified lifting slings for a single point overhead lift, if required.
